Student Suggestions:

Good
Good but books knowledge is well and good but practical knowledge knowledge should also be imparted.
All good
All good
Give an overall brief revision in middle of semester and few good communications with students
Give a time for sem exams,it seems give some more time for sem exam for preparation
All good
Changing syllabus can provide thegood knowledge to students
I can suggest that there must be atleast one practical subject in a sem for Bcom students because it is very important. Some students don't know how to start a computer till now and by taking account of the technological advancement in commerce field there must be Microsoft Office atleast excel course to be offered by the management.
Everything good

I would like to suggest that rooms allotment have to be stable without shuffling. Because of un availability of allotted rooms we have to waste our time in searching a room for each class.
give some preference to ncc also by providing thier photos in banners
Good
Good...
It would be better if students are beforehand informed about their exams with Time table and also conduct only one exam during a day which may help students to score good rather than taking overload
hostel facility
hostel for boys
Improve the curriculum in more excellent way for this competitive place
Improvisation is the act of producing and using local resources in the absence of real ones in teaching and learning situations. It's better to provide a specific textbook to the students. Xerox copies aren't have long durability then textbooks. So

they easily damaging after few months. Therefore we aren't able to refer that xerox copies in future at any interview purposes.So my suggestion is please provide textbooks to us sir.

Need more practical based explanations.

No suggestions

Provide atheist 3 hrs for LAB per week and 3 hrs for library under any semester
